

# WEEMS<sub>M&E</sub>

MECHANICAL CONTRACTOR

**Integrity. Strength.  
Professionalism.**

**/ It's How We're Geared**

Weems Engineering provides a single point of accountability and responsibility that is with you from start to finish. Our design, build process and team approach increases the lines of communication for your project as well as simplifying decisions. You reap the benefits of effective project management that leads to early construction starts and long term cost savings.

## Welding

We provide a wide range of welding capabilities including mig, tig and stick welding.

Our senior welders have experience in structural, pressure vessel, pipe, sheet metal and fabrication welding with all forms and grades of steel.

## Machine Shop

Whether it's building rollers, or small parts, we have what it takes to get the job done. Our qualified staff of machinists can handle any job that is given to them.

## Laser Cutting

With our Mazak Optiplex Nexus 3015 Fiber laser cutting system we are capable of cutting 1" mild steel with a bed capacity of 5'x10'. This enables quick turn around times and lower costs.

## Water Jet Cutting

Equipped with the latest in water jet technology we can cut through thicknesses of 7" mild steel with a bed size of 6' x 24' while still holding up to +/- .002", using our Flow Mach III Cutting system.

## Piping

Our proficient fitters and welders use their experience to find the most cost effective way to get the job done. Our piping team is dedicated to identifying any potential system deficiencies.

## Equipment Relocation and Installation

Our experienced team offers full plant and machine dismantling and installation capabilities for all industrial and commercial sectors.

## Insulation Services

We provide value-added insulation services that allow you to reduce energy costs and emissions while enhancing performance and personnel safety. Our insulation services utilize both heat and cold resistant insulation materials to cover all varieties of piping attached to plumbing fixtures.

**We're Geared to Provide Personal Service... Every Time.**

## CAD & 3D Services

We have the people and equipment to work on a full range of projects. We can create 2D and 3D drawings to provide design solutions for your manufacturing needs.

# Sheet Metal

Our sheet metal shop offers a wide range of sheet metal services which include but are not limited to the following: round and square ductwork, blowpipe, pans, catwalks, equipment guarding, flashing, funnels, squared to rounds, and much more.

# Concrete and Aggregate

Weems M&E performs excavation and concrete services including equipment pads, trenching, grading, containment curbs, demolition etc. Offering these services compliments our other services in that we can provide turn key solutions.

**/ Certifications / Safety Programs**

We provide FREE design estimates for all your industry needs. We will give you an estimate for anything from a drawing on a napkin to an engineering specification.

**/ We Are Here For You. We're Geared to Provide Personal Service... Every Time.**

One phone call. One email. One text message. One smoke signal. We will be there to help you with all of your mechanical contracting needs.
